BURCHARDI, MR KONRAD BURCHARD

Question: Please write below aspects of the class teaching that have pleased you most and describe briefly why these aspects have pleased you.

- Provides brief and concise recap of concepts which are related to the questions that will be discussed later on in the class
- Explains topics discussed in the lecture very well - enhances understanding of topics.
- Initiated his own website to post teaching resources
- Konrad obviously knows the subject matter well and is very enthusiastic about the course. He is also a gifted teacher.
- The way in which Konrad discusses the general concepts and methods, in addition to going over specific homework problems, makes this an excellent class. He is also very good at explaining complex concepts and methods.
- Konrad is the best teacher I have ever had. The course materials are not easy and still he can explain them.
- Mr Burchardi is a friendly class teacher. His office hour is usually very helpful
- It's very clear when he is trying to introduce a new topic.

Question: Please write below aspects of the class teaching by that have most displeased you and explain briefly why these have displeased you.

- Not much time spent on actual questions and methods of answering them which is the main difficulty with this course.
- Subject is difficult, do not always understand although he tries, while the level of understanding by the class on the subject is different, hard to suit everyone.
- Although I appreciate it is difficult to set an office hour, Konrad's office hour seems to change every week.
- It is not the fault of the class teacher at all, but the classes are quite far behind the lectures in terms of the material we cover.
- No complaints.
- Mr Burchardi absolutely races over the coursework leaving the class confused and phased out. It is almost always difficult to understand him. He keeps changing his office hour timings.
- Sometimes, he can't finish all the questions during one class.

Classes are not interactive. Homeworks
Exercises do not overlap w/ lectures.
Overall failure to impart the material.

Good qualities include a strong passion
for the material. Readily available to
help any student in distress. Comes across
as prominent but, again, does not
succeed in providing a succinct ^{structure}.
